

Please do not allow banks and businesses to make unsolicited phone calls to my home. If I need their services, I am capable of calling them. Many times I have struggled to get out of my chair, rushed to the phone thinking it might be one of my children or my elderly parents might need help, only to have an unknown person try to pressure me into buying something I do not want. If you have arthritis, I'm sure you understand. Please protect my privacy and my right to peace in my own home.
